What's Bothering Peter?

Draw or write in the cloud the sounds he hears in his house.

“How Many?” Math Problems

Below are some word problems from the story *Too Much Noise*. Read each problem and then solve it in the space provided. Show your work.

<p>1. Count how many animals are in the story. Add to that the number of men in the story. How many is that altogether?</p>	<p>2. Ten pigs were in a pig pen. Seven pigs got out. How many pigs were left in the pen?</p>
<p>3. Four cows, five sheep, and three goats were eating grass in a field. How many animals in all were eating grass?</p>	<p>4. Six donkeys and five cows were in the barn. Four cows left the barn. How many donkeys and cows are in the barn now?</p>
<p>5. Ten leaves fell to the ground by Peter's house. The wind blew five of them away. Then three more leaves fell to the ground. Now how many leaves are on the ground?</p>	<p>6. Peter's house has four sides. Each side has two windows. How many windows are on the whole house?</p>

Teacher's Note: Fold this answer key under before reproducing. If students are to self-correct the problems, do not fold under so students can check answers.

1. $6+2=8$

2. $10-7=3$

3. $4+5+3=12$

4. $6+5=11, 11-4=7$

5. $10-5=5, 5+3=8$

6. The answer 8 can be arrived at a number of ways.
