Practice Solving Problems with Line Graphs	27		

Directions: Use your Five-Step Plan and the Secret Code Words list to solve these problems. Write the code words in each sentence and name the operation.

1. Your best friend has a collection of 34 comic books. Your neighbor has a collection with 9 times as many comic books. How many comic books does your neighbor have?

Code words: _____

Operation: _____ **Solution:** _____

2. Your teacher told 10 students they could share a bag of candy corn evenly among themselves. There were 440 candies in the bag. How many candies did each student receive?

Code words: _____

Operation: _____ **Solution:** _____

3. Your good friend has a collection of 345 baseball cards. Your coach has 20 times as many baseball cards. How many cards does your coach have?

Code words: _____

Operation: _____ **Solution:** _____

4. What is the product of 43 and 30?

Code words: _____

Operation: _____ **Solution:** _____

5. Willy has \$11.29 in his piggy bank. Wally has 20 times as much money in his piggy bank. How much money does Wally have?

Code words: _____

Operation: _____ **Solution:** _____

The Sweet 'n Sour Candy Shoppe is stocked floor to ceiling with baskets of Lickem Lollipops, piles of Marshmallow Munchies, barrels of Hard Rock Candies, mounds of Super Sour Suckers, stacks of Chocolate Covered Peanut Bars, and mountains of Ultra Chewy Tooth Yankers.

Directions: Read each problem below. Underline code words, if any are used. Write the operation that you use to solve each problem. Explain why each answer makes sense.

1. Your best friend bought 9 buckets of Ultra Chewy Tooth Yankers. Each bucket contains 136 Tooth Yankers. How many Tooth Yankers did your friend buy?

Operation: _____ **Answer:** _____

The answer makes sense because _____

2. Your mother bought 975 Chocolate Covered Peanut Bars. You eat 5 Chocolate Peanut Bars every week. How many weeks will the supply of bars last?

Operation: _____ **Answer:** _____

The answer makes sense because _____

3. Your teacher bought a barrel of 1,345 Hard Rock Candies to use as rewards. She used 419 candies one month. How many Hard Rock Candies does she have left?

Operation: _____ **Answer:** _____

The answer makes sense because _____

4. Your principal bought 2,345 Lickem Lollipops, 987 Super Sour Suckers, and 1,008 Marshmallow Munchies for a school carnival. How many candies did the principal buy altogether?

Operation: _____ **Answer:** _____

The answer makes sense because _____

5. Marshmallow Munchies come in a bag with 2,000 Munchies. A group of 5 girls decided to split them evenly. How many Marshmallow Munchies did each girl receive?

Operation: _____ **Answer:** _____

The answer makes sense because _____

6. Your best friend was given 15 bags of Super Sour Suckers. Each bag had 95 suckers. How many Super Sour Suckers was your friend given?

Operation: _____ **Answer:** _____

The answer makes sense because _____
