## Shape Slap

### Directions:

1. Find a partner. Look at the game board. Then, look at the shapes.
2. Pick a shape. Color in this shape on the board. If you need to, you can spin the shape. Draw an **X** over the shape you used.
3. Now, it is your partner's turn.
4. The first person who does not have room to place a shape loses!

## Beginnings and Ends Game

### Directions:

1. Find a partner.
2. Look at the pictures below. Think of the words they show.
3. Start at *mouse*. This word ends with the letter “e.” Which word begins with the letter “e”? The first one has been done for you.
4. Take turns drawing arrows to the next picture. Also, write the words you use.
5. If you cannot find a word in one minute, your partner wins. If you can use every picture, you both win!

### Addition Challenge

**Directions:**

1. Pick a colored pen. Have your partner pick a different color.
2. One player is on the left, and one player is on the right.
3. Look at the numbers in the middle. In each row, circle the numbers on your side that add up to the number in the middle. You can circle as many numbers as you need. For example:

1	2	3	4	5	6	7	8	9	23	9	8	7	6	5	4	3	2	1
---	---	---	---	---	---	---	---	---	----	---	---	---	---	---	---	---	---	---

4. Once you have circled any combination of numbers, put an **X** on the number in the middle. That row is now closed. You get a point for each **X**.
5. Start at the same time, and solve as many rows as you can before your partner.
6. You do not have to solve the rows in order. (You can start at the end or skip around.)
7. At the end, the person with the most points wins.

Player #1											Player #2
