# Let's Follow George!

It would be fun to follow Curious George and have many exciting adventures! Now, it's your turn to do this! Sing this song to the tune of "Mary Had a Little Lamb" and fill in the blanks to tell where you went with George and what happened.

There once was a little monkey named George,  
A monkey named George, a monkey named George.  
The once was a little monkey named George,  
And he was always curious.

Everywhere that Curious George went,  
Curious George went, Curious George went,  
Everywhere that Curious George went,  
We followed him there, too.

We followed him to the \_\_\_\_\_,  
To the \_\_\_\_\_, to the \_\_\_\_\_.  
We followed him to the \_\_\_\_\_,  
And we saw lots of \_\_\_\_\_.

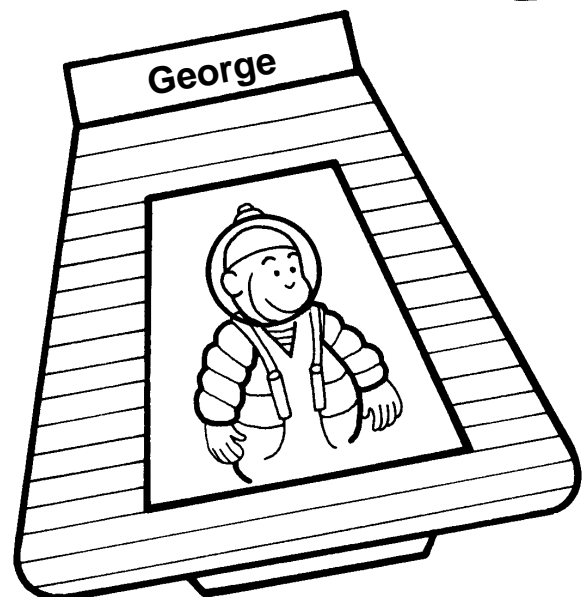

We followed him to the \_\_\_\_\_,  
To the \_\_\_\_\_, to the \_\_\_\_\_.  
We followed him to the \_\_\_\_\_,  
And we heard lots of \_\_\_\_\_.

*(continued on page 32)*

# Sam, Miss Sam, Ham, and George: Famous Monkeynauts!

Monkeys are like human beings and can use their hands well. That is why they were often used in space experiments before humans went into space. Read the facts about Sam, Miss Sam, and Ham, famous monkeys from the U.S.A. who went into space in a space capsule. A space capsule is the part of the spacecraft in which the monkeys traveled.

## Be Curious!

Find out more about animals that have gone into space by researching on the Internet.
