# Practice 20

Use the  $>$  or  $<$  symbols to compare the numbers below. Complete each sentence. The first one has already been done for you.

- |   |   |  |  |
|---|---|--|--|
| <p>1.</p> <p>376  259</p> <p><u>376</u> is greater<br/>than <u>259</u> .</p> | <p>2.</p> <p>923  675</p> <p>_____ is greater<br/>than _____ .</p> | <p>3.</p> <p>987  255</p> <p>_____ is greater<br/>than _____ .</p> | <p>4.</p> <p>550  777</p> <p>_____ is less<br/>than _____ .</p> |
|---|---|--|--|

- |   |  |   |   |
|---|--|---|---|
| <p>5.</p> <p>800  250</p> <p>_____ is greater<br/>than _____ .</p> | <p>6.</p> <p>205  353</p> <p>_____ is less<br/>than _____ .</p> | <p>7.</p> <p>148  579</p> <p>_____ is less<br/>than _____ .</p> | <p>8.</p> <p>315  188</p> <p>_____ is greater<br/>than _____ .</p> |
|---|--|---|---|

**Ordinals** are words that are used to describe location. For example: She is *fourth* in line. Fourth is the ordinal. Fourth tells where the girl is in line.

Answer the questions below.

- |  |  |
|--|--|
| <p>9. The square is _____ in line.</p> <p>10. The oval is _____ in line.</p> <p>11. The pentagon is _____ in line.</p> | <p>12. The diamond is _____ in line.</p> <p>13. The cube is _____ in line.</p> <p>14. The star is _____ in line.</p> |
|--|--|

# Test Practice 1

1. Which number matches the blocks below?

- (A) 71    (B) 26    (C) 72    (D) 27

2. Which number matches the blocks below?

- (A) 299                      (B) 298  
(C) 290                      (D) 289

3. What place value does the digit 8 have in 2,853?

- (A) tens                      (B) hundreds  
(C) ones                      (D) sixties

4. What is the value of the digit 4 in the number 6,784?

- (A) 4    (B) 400    (C) 40    (D) 1

5. Write  $600,000 + 10,000 + 2,000 + 90 + 8$  in standard form.

- (A) 612,089                      (B) 6,120,098  
(C) 61,298                      (D) 612,098

6. Which number matches the blocks below?

- (A) 94    (B) 48    (C) 49    (D) 95

7. What place value does the digit 5 have in 5,368?

- (A) tens                      (B) five hundreds  
(C) ones                      (D) thousands

8. Write  $900 + 20 + 3$  in standard form.

- (A) 329                      (B) 950  
(C) 923                      (D) 932

9. Write  $400,000 + 50,000 + 5,000 + 700 + 40 + 1$  in standard form.

- (A) 455,741                      (B) 4,557,041  
(C) 4,055,741                      (D) 455,714

10. Write  $100,000 + 60,000 + 7,000 + 900 + 30 + 6$  in standard form.

- (A) 1,679,036                      (B) 167,963  
(C) 1,067,936                      (D) 167,936

11. Write  $600 + 90 + 5$  in standard form.

- (A) 695                      (B) 659  
(C) 596                      (D) 740
