# Practice 23

The People's Bank (Interest earned per month)			
\$25–\$250	No Interest	\$751–\$1,000	2%
\$251–\$500	1%	\$1,001–\$10,000	3%
\$501–\$750	1.5%	More than \$10,000	3.5%

**Directions:** Use the chart to find the interest earned on each savings account.

Jamie opens a savings account with \$1,500.00. She leaves the money in the account for 1 month.

- How much interest does she earn? \_\_\_\_\_
- What is her ending balance? \_\_\_\_\_

Lee opens a savings account with \$250.00. Lee leaves the money in the account for 2 months.

- How much interest does Lee earn the first month? \_\_\_\_\_
- How much interest does Lee earn the second month? \_\_\_\_\_
- What do you notice about answers 3 and 4? \_\_\_\_\_  
\_\_\_\_\_

Suppose Lee adds \$100 to the account at the beginning of the second month.

- How much interest would Lee earn? \_\_\_\_\_
- How much money would Lee have in the account? \_\_\_\_\_

Curtis opens a savings account with \$5,000. He leaves the money in the bank for 1 month.

- How much interest does he earn? \_\_\_\_\_
- What is his ending balance? \_\_\_\_\_

# Practice 36

**Directions:** Write the coordinate for each point.

1.  $K =$  \_\_\_\_\_

4.  $L =$  \_\_\_\_\_

7.  $H =$  \_\_\_\_\_

10.  $C =$  \_\_\_\_\_

2.  $D =$  \_\_\_\_\_

5.  $E =$  \_\_\_\_\_

8.  $B =$  \_\_\_\_\_

11.  $A =$  \_\_\_\_\_

3.  $G =$  \_\_\_\_\_

6.  $I =$  \_\_\_\_\_

9.  $F =$  \_\_\_\_\_

12.  $J =$  \_\_\_\_\_
