Levels 2-3

Tips on Reading This Book with Children:

1. Read the title.

Predictions – after reading the title have children make predictions about the book.

2. Take a book walk.

Talk about the pictures in the book. Use the content words from the book as you take the picture walk.

Have children find one or two words they know as they do a picture walk.

3. Have children find words they recognize in the text.

4. Have children read the remaining text aloud.

5. Strategy Talk – use to assist children while reading.

- Get your mouth ready
- Look at the picture
- Think...does it make sense
- Think...does it look right
- Think...does it sound right
- Chunk it – by looking for a part you know

6. Read it again.

7. Complete the activities at the end of the book.

What Is Electricity?

Every day, we use **electricity**. Electricity powers the lights in our homes and schools. Computers, music players, cell phones, and refrigerators run on electricity.

A night cityscape with numerous skyscrapers and buildings illuminated by warm yellow lights. A yellow sticky note is pinned to the top right corner with a red pushpin. The note contains the text "How many ways do you use electricity?".

*How many ways do you
use electricity?*
