

# Madagascar

These are lemurs. They live on the island of Madagascar.

Most lemurs have long, furry tails.

## FACT

There were about 50 species of lemur. 16 species are now extinct. 17 species are **endangered**.

Pygmy Mouse

Indri

Lemurs come in many sizes. The tiny Pygmy Mouse Lemur is as small as a mouse. The largest lemur, the Indri, is as big as a two-year-old child.
