

7. Sea otters eat **clams** and other hard-shelled sea creatures. They smash the shells against rocks to get the meat inside.

8. Sea otter moms take good care of their babies. A baby sea otter is called a pup.

9. Sea otter moms carry their pups on their chests to keep them out of the **frigid** water.

10. Sea otter moms blow on their pups' fur to keep the pups warm and dry.

SEA OTTERS  
ARE SO CUTE  
AND CUDDLY—I  
JUST WANT TO  
HUG THEM!
