Multiplication Word Problems

Directions: Solve the word problems.

1.

James has 4 brothers. He has to buy 4 presents for each of his brothers. How many presents does James have to buy in all?

2.

Becky sewed 3 buttons on 5 shirts. How many buttons did she sew altogether?

3.

Nicole has 3 paintbrushes in each of 4 cans. How many paintbrushes does Nicole have altogether?

4.

Max has 5 pockets. He has 5 marbles in each pocket. How many marbles does Max have altogether?

5.

Don had 2 baskets. There were 6 balls in each basket. How many balls were there altogether?

6.

Janet placed 3 candy bars in each of 6 bags. How many candy bars did she place in the bags altogether?

Stop at Bingo

Directions: Solve the problems below in any order. Find your answer on the Bingo card and circle it. Keep working on the problems until you have a Bingo, that is five circled answers in a line—up, down, or diagonally. As soon as you find the Bingo, you can stop your work!
