Do you know the trick for adding tens together?

Add the first digits together.

Then, add a zero!

$$20 + 20 = ?$$

$$2 + 2 = 40$$

$$40$$

Don't Forget!
Add the zero!

Let's add tens to a 2-digit number.

We can use base-ten blocks and a number line to help!

40

Group all the tens together. Then add the ones.

$$33 + 40 = 73$$
