Creative Director: Sarah M. Fournier
Cover Design: Denise Bauer
Imaging: Diem Pascarella
Publisher: Mary D. Smith, M.S. Ed.

The classroom teacher may reproduce the materials in this book for use in a single classroom only. The reproduction of any part of this book for other classrooms or for an entire school or school system is strictly prohibited. No part of this publication may be transmitted or recorded in any form without written permission from the publisher with the exception of electronic material, which may be stored on the purchaser's computer only.

HOW TO USE THE RECORD BOOK

MONTHLY REMINDERS (page 3)

Use this chart as a quick reference. Record significant events, meetings, appointments, conferences, seminars, etc.

STUDENT ROSTER (pages 4–5)

Record both student and parent or guardian names and addresses. Where applicable, make a special note of differences in last names. You may wish to list siblings and their grades if they attend the same school. Notes may include information regarding special needs children and any medications necessary.

WEEKLY RECORDS (pages 6–63)

The weekly record section is designed to provide organized space for recording daily notations or grades for assignments, tests, attendance, tardies, participation, etc. Each page contains a five-week block of spaces so that a student's record for an entire quarter of ten weeks can be read on facing pages. Summary columns for recording total attendance, tardies, and other information appear on the right-hand facing page for each ten-week period.

GRADING CHART (page 64)

A convenient chart for scoring students' work is provided at the back of this book. Use the chart as a quick reference when scoring 3 to 50 items of equal value. To use the chart, simply "connect" the row that matches the total number of items to be scored with the column indicating the number of incorrect items.

By following across the row and up the column to the intersection point (number), you can determine the raw score. For example, if the total number of items on a given test is 35, and a student marked 5 incorrectly, his or her score would be 86%. The score is obtained by moving across row 35 and up column 5 to the point where they meet (86%).
