Sea Creatures

Directions: Cut the two sections to separate them for your child. Have them carefully cut along the curvy lines to separate the sea creatures. Name each one.

Wild Animals

Directions: Carefully cut along the long, curved lines to reach each wild animal.

Eggs in the Nest

Directions: Color the nest and the eggs. Carefully cut out the eggs and glue them into the nest. What shape are the eggs?

Owl Fun

Directions: Color the owl and carefully cut it out. Then, cut the three zigzag lines on the body. Lay the pieces on a sheet of colored paper. Separate them so that the colored paper shows through. Draw wings and feet.
